

UNGER®

Quality Tools for Smart Cleaning

**IF YOU WANT TO REACH GREAT HEIGHTS YOU NEED A STRONG GRIP:
The New OptiLoc Telescopic Poles**

NEW!

Quality Tools for Smart Cleaning

SAFETY AT THE HIGHEST LEVEL

UNGER telescopic poles have always been the ideal tool for the job when it comes to making professional glass cleaning from the ground easier.

The 2- or 3-section aluminium telescopic poles are available in 12 different lengths and can handle cleaning windows and glass surfaces up to 10 metres high. For even more ease of use and handling, **UNGER** has now further optimised its OptiLoc telescopic poles. Thanks to the new 2-component twist lock, this new generation of OptiLoc telescopic poles offers many advantages:

- 2-component handles: improved grip even when your hands are wet
- ergonomic thanks to the new handle design
- anti-slip protective end cap for when resting on the ground
- weight and rigidity perfectly balanced
- highest quality „Made in Germany“
- optimal compatibility with all **UNGER** glass cleaning tools

„The new OptiLoc pole fits really perfectly in the hand and it's super to work with.“

Jeremia Franke, a passionate glass cleaner for over 5 years

NEW!

ERGOTEC® LOCKING CONE

- Compatible with all UNGER tools.
- Prevents tools from falling down
- Fast and easy tool change

2-COMPONENT- TWIST LOCK
